We are sorry to be so late in thanking you. Time does have a way of flying by. We wanted to express our sincere thanks for the great job selling Francis's tools! Jason Black was so kind and considerate of Francis' feelings and packed the van completely even when I was sure no more would fit. We were glad of his kindness 😊

We needed the space to store our furniture as our addition is completed. Your call came at just the perfect time, Janet. Every part of the transaction occurred as promised. We received our check at the time it was to be delivered. In other words we couldn't have been more satisfied with the performance of your organization.

Having shopped auctioneers we were made even more aware of your value.

Thank you all ever so much !
